

SHINGLEBACK 200 SERIES LANDCRUISER INSTRUCTIONS

If you have a 200 series Landcruiser you most likely have the factory fitted 50mm hitch receiver towbar which varies from other standard towbars.

Because of this variance, the standard Shingleback anti rattle clamp isn't compatible. We designed and produced an anti rattle clamp specifically for 200 series Landcruisers to ensure the same secure fitting is achieved.

To fit the anti rattle clamp correctly please ensure it is oriented as per this photo.
