

SHINGLEBACK LITE

Assembly Instruction and Install Booklet

We'd like to take this opportunity to welcome you to the Shingleback Off Road community.

You are amongst a growing number of satisfied customers who are enjoying the great outdoors and transporting their bikes in style.

We know you're excited especially when you're getting ready to take your bike out to your favourite trails... but before you do, you need to correctly assemble your vertical bike rack.

Activate your Warranty

To ensure we have the latest contact information please register your rack online to ensure you are kept up to date with our latest developments and any safety related advice we would like to share with you.

Once registered your rack is covered by our 10 year guarantee. Visit shinglebackoffroad.com.au/register to learn more or scan the QR code at right.

10 YEAR
GUARANTEE

Now the fun begins!

To ensure your rack performs as it should, please carefully follow the assembly instructions for the rack you purchased.

For full assembly instructions on video scan the QR code at right or visit shinglebackoffroad.com.au/lite-instructions

Caring for your rack

To maintain the look of your new Shingleback rack and to keep it operating as it should, here are some quick tips to keep you happy on the trails.

MAINTENANCE

Before each outing, check these items on your Shingleback rack.

- The rack is firmly in towbar and the hitch pin is in place
- Check the anti rattle clamp is firmly secured by checking the U-bolt nuts have been done up tightly. This part does wear over time and if you need replaceable parts for this attachment please visit our website to purchase.
- All nuts and bolts are tightened to the correction specifications outlined in this instructions
- Clean the Crank Nut with a wire brush and apply clean grease to the thread to ensure continued smooth operation

CLEANING

- After each adventure or outing, Shingleback Off Road recommends cleaning the rack with a soft cloth and warm soapy water to wash off any road grime or dirt.
- Rinse off with cold water.

STEP 1: CHECK THE PARTS AND GATHER YOUR TOOLS

- Check that everything is in the box, and gather your 19mm & 13mm spanners (or sockets) and a shifter.
- It is easier to complete the assembly with your car so you've got a solid base to build from and ensure a great fit.

STEP 2. THE TOW BAR TUBE

- Fit the tow bar tube into the hitch on your car and secure with the Anti-rattle Clamp (ARC).

STEP 3. THE PIVOT BOX

Assemble the pivot box:

- Fit the pivot plates, use a washer on the nut side only.
- Fit the aluminum spacers, finger tight for now
- Gently tighten just the one bolt closest to the car on the tow bar tube (this is to make it easier to insert the centrepost.)

TIP: Choose a set of holes to keep the rack close to your car, the offset holes can also be used, allow about 100mm clearance between the cradles and rear window. Short and Long tow bar tubes are available if needed.

STEP 4. CENTRE POST

1. Fit the spring to the foot latch and centre post.
2. Fit the centre post and position in the upright travel position with the latch engaged.
3. Fit the "Safety Pin"
4. Tighten the pivot box bolts, all tight except for the pivot bolt (tight then back 1/4 turn)
5. Tighten the tilt limit bolt (needs to be loose to ensure free movement)

STEP 5. TOP BAR BRACKET

- Fit the top bar bracket using two of the 5 bolts as shown with washer & nut on the back.

STEP 6. TOP BAR

- Fit the top bar with the sticker facing away from the vehicle.
- For the 4B, insert just the 2 outer bolts for now, washer and nut on the car side of the rack.
- For the 5B or 6B rack there are two sets of mounting holes to choose from. Depending on your rack, line up the etched “5” or “6” with the centre of the centre post and loosely fit the 2 outer bolts.

NOTE: Don't stress, the Top bar is designed to be off centre, this is to ensure the bikes are centred to the vehicle

STEP 7. CRADLES

- Fit the cradles, start left to right, use the “DEFAULT PATTERN” as pictured overleaf
- Fit the crush tube to the end
- Dangle bolts through mount holes and lower onto top bar
- Use a washer under the head of the bolt and a washer underneath the top bar with the nut.
- When up to the cradle mount bolt that is at the centrepost, remove the RH top bar bracket bolt and carefully allow the top bar to tilt sideways to give access
- Re-fit the top bar bracket bolts (all three this time) and tighten all 5 top bar bracket bolts.
- Finish fitting the cradles, for the 4B and 5B finish with a crush tube and end cap in the end.
- If you have a 6B, before fitting the 5th cradle insert the top bar extension, make sure the Shingleback logo is the correct way up and facing away from the car. Slide into the top bar until the two cradle mount holes line up. For the cradle on the extension, use two black body washers underneath for each bolt.

4 BIKE CRADLE DEFAULT PATTERN

5 BIKE CRADLE DEFAULT PATTERN

6 BIKE CRADLE DEFAULT PATTERN

STEP 8. BOTTOM BAR BRACKET AND BOTTOM BAR

- Fit the bottom bar bracket in either height position
- Fit the bottom bar, ensure buttons are on top. For 6B first assemble with the joiner.

FITTING THE 6B BOTTOM BAR BRACKET

STEP 9. NUMBERPLATE BOARD

- Attach your bike rack numberplate to the number plate board with cable ties.
- Fit the numberplate board to the bottom bar as shown.
- When bikes are loaded the numberplate board can be attached to the rear wheels.

Operating Instructions

TILTING BACK: TRAVEL TO LOAD POSITION

- Make sure the Tilt Limit Bolt is in the desired position to limit tilt back
- Remove the Safety Pin
- Brace yourself, then activate the foot latch to release the rack while controlling the weight of the rack and any bikes as it lowers, **NEVER DROP**, if the rack is loaded two people may be needed.

LOADING BIKES

- Rule of thumb is to load from left to right, biggest/longest travel bike to smallest. However, because of the multi directional cradle adjustment it's possible to set your rack up so you have a big bike in the middle and smaller bikes on each side. This not only looks more balanced but it also reduces the risk of the long bike contacting the ground.
- **E bikes:** Always load e bikes in the centre of the rack, don't exceed the rack or your vehicle's weight ratings.
- **Roll in loading:** When the rack is tilted back into the load position, it's possible to roll the bikes in without the need to lift the bikes over your head. An easy way to get the bike onto its back wheel is to simply apply the rear brake and walk backwards. Now wheel the bike towards the cradle on about a 30 deg angle, aiming for the middle of the cradle end. Push on the handlebars as you guide it in. Fasten both the top and bottom bungees.

TIP: Use your knee under the bike seat for an extra boost as you push the bike into the cradle.

STANDING BACK UP: LOAD TO TRAVEL POSITION

- Push the rack up until it auto latches in the upright or travel position, two or more people may be needed
- Fit the safety pin

Scan the QR code for further information and to view the LITE installation video.

IMPORTANT!

Always fit the gold safety pin as shown before travelling.
NOTE: the type of safety pin may vary depending on supply.

Always brace yourself and control tilting.

NEVER DROP

MAX. WEIGHT
PER CRADLE **MAX 35KG**

MAX. WEIGHT
RACK + LOAD* **60%**

MAX. CARRYING
CAPACITY** **MAX 115KG**

* The total weight of the rack and load must not exceed 60% of the vehicle's tow hitch tow ball rating. ** Regardless of your vehicle's tow hitch download rating, the maximum carrying capacity of the rack is 115kg.

IMPORTANT: A swingarm reduces your bike rack's load rating. Dirt roads can reduce load ratings. Shingleback Off Road recommends that you brace the rack to your vehicle with ratchet straps if driving on uneven surfaces. See shinglebackoffroad.com.au for more details.

Make the most of your bike rack with our range of genuine Shingleback Off Road parts and accessories.

Our 10 Year Guarantee. We love our work!

We're so confident in the workmanship of our Shingleback Racks that we're prepared to offer customers a 10 Year Guarantee.

The workmanship guarantee covers:

- Build quality
- Welding
- Breaking or bending of materials (when used in accordance with intended purpose and not overloaded)

If you experience an issue with your rack, please contact us directly and we will work with you to find a solution.

Excluded from guarantee:

- Damage from misuse of the product, or use against the advice of Shingleback Off Road
- Damage from accidents
- Bungee cord loops and buttons (these will last a long time but they have a limited lifespan)
- Powdercoating (while it is an industrial scratch resistant powdercoat we can't guarantee against it being worn through)
- Anti rattle clamp (Over extended periods of usage this part should be replaced as the U-bolt wears over time – purchase of this part is available on our website)
- Rust
- Stickers

Shingleback Rack Structural Warranty Terms And Conditions

Please read the following document carefully.

This document describes what is included in the New Product Warranty, and what is not covered by the New Product Warranty. By purchasing from us, you agree to the terms and conditions of this Warranty.

1. General

1.1. Shingleback Off Road Pty Ltd (ACN 633 831 393) ('Shingleback') gives this New Product Warranty ('Warranty') in relation to its vertical bike rack, trolley stand, swing arm and floor stand products ('Product(s)').

1.2. Product(s) purchased from Shingleback are warranted by us to be free from defects for the duration of this Warranty period subject to these terms and conditions ('Terms').

1.3. The benefits provided by this Warranty are in addition to other rights and remedies available to you under the Australian Consumer Law ('ACL').

1.4. Any reference herein to "we", "our", or "us" means Shingleback. Any reference to "you" or "your" means you, as the original consumer purchaser ('Customer').

2. Limited Warranty

2.1. Shingleback warrants to the Customer that the Product(s) supplied by Shingleback will be free from manufacturing defects, and under normal use when reasonable care and maintenance is applied, within the Warranty periods set out in these Terms.

2.2. This Warranty is limited to the first purchaser and it is not transferable on the sale or other disposition of the Product(s).

2.3. The liability of Shingleback under this Warranty is limited to the repair or replacement the Product(s) or defective part of the Product(s) or the cost of such repair or replacement in the discretion of Shingleback.

2.4. To the fullest extent permissible at law, Shingleback's liability for incidental and consequential damages resulting from the operation, maintenance, or use of your Product(s) is expressly excluded.

3. Warranty Coverage and Warranty Period

3.1 Items manufactured by Shingleback that comprise the structural components of the Product(s) are covered by this Warranty for a period of ten (10) years from delivery of the product(s), subject to, but not limited to, the following specifications and/or exceptions:

(a) the welded and steel structure of Product(s) are covered by a ten (10) Year warranty;

(b) all other components and parts of the Product(s), excluding the items in 3.1(a), are covered by a three (3) month warranty;

(c) Warranty for Product(s) being used commercially or 'off-road' is limited to a two (2) Year Warranty;

(e) Warranty for Product(s) used in a hire application is limited to a one (1) year warranty.

3.2. Unless otherwise specified, the warranties in this Warranty commence on the day you receive the new Shingleback Product(s).

4. How you can make a claim

4.1. Any claim in relation to a Warranty should be referred to an authorised Shingleback employee. All warranty defects must be reported to an authorised Shingleback employee as soon as possible and within a reasonable timeframe.

(a) In order to make a claim under this Warranty, a consumer must, at its own cost present the Product(s) to an authorised Shingleback dealer; and collect the Product(s) at their expense once notified that it is ready for collection. If an authorised dealer is not reasonably available, Shingleback may at its discretion allow the Product(s) to be presented at an alternative location.

A list of all authorised Shingleback Stockists and their location and contact details may be found at Shinglebackoffroad.com.au/stockists

(b) To make a Warranty claim during the warranty period, you must:

validate ownership details;

provide proof of purchase to an authorised Shingleback employee showing the date of purchase of the Product(s); and

provide a full description of the defect whether material, workmanship or structural integrity and whether it's for a major or a minor component of the Product(s).

(c) Shingleback reserves the right to inspect and test defective part(s) that are the subject of any claim under this Warranty.

(d) The servicing or repair of your Products(s) by third parties that are not authorised by Shingleback will not void your warranties.

However, to the extent that any problem arises due to any third-party servicing or repairs, Shingleback reserves the right to request additional information about the work and servicing performed on your Product(s). Shingleback will not be liable for damages, defect or failure caused by having Product(s) serviced or repaired by third parties that are not authorised by Shingleback.

(e) Shingleback reserve the right to, at their discretion, deny or cancel all or a portion of the reimbursement and/or warranties given under this Warranty, in the event that your present incomplete, insufficient, false and/or fraudulent claims and/or documents in relation to this Warranty.

4.2 To honour a valid claim made under this Warranty, we will either repair or replace the Product(s) within the applicable warranty period free-of-charge or authorise the Product(s) to be replaced or repaired free-ofcharge. Unless required by law, our maximum liability extends to the repair or replacement of the defective Product(s), or at our sole discretion, a full refund up to the maximum purchase price.

4.3 This Warranty does not provide for reimbursement or payment of incidental expenses or consequential damages.

5. Warranty Exclusions

5.1. The scope of this Warranty is expressly limited to items constructed by Shingleback.

5.2. Claims that do not fall under the term “defects from manufacture” will not be covered by this Warranty. Claims that will not be covered include, but are not limited to, claims in relation to:

(a) Product Care - Failure to maintain and care for your Product(s), including the powder coating in accordance with Shingleback recommendations.

Improper maintenance, such as use of incorrect cleaning agents.

(b) Damage - Any defects resulting from an accident, impact, fire, improper repairs or illegal use or malicious or accidental damage to your Product(s) (including damage by a third person).

(c) Instructions - Defects where you have not used the Product(s) in accordance with the operating instructions or design specifications.

(d) Misuse - Any defects resulting from operator negligence, misuse or abuse, loading beyond specified load and capacity, use in off road condition beyond the designed or intended use of the Product(s).

(e) Modifications - Any modifications, dismantling or other alterations that have not been approved by Shingleback. Any defect caused by changes to original equipment and the fitment of non-approved parts or accessories. Product(s) to be replaced or repaired free-ofcharge. Unless required by law, our maximum liability extends to the repair or replacement of the defective Product(s), or at our sole discretion, a full refund up to the maximum purchase price.

4.3 This Warranty does not provide for reimbursement or payment of incidental expenses or consequential damages.

5. Warranty Exclusions

5.1. The scope of this Warranty is expressly limited to items constructed by Shingleback.

5.2. Claims that do not fall under the term “defects from manufacture” will not be covered by this Warranty. Claims that will not be covered include, but are not limited to, claims in relation to:

(a) Product Care - Failure to maintain and care for your Product(s), including the powder coating in accordance with Shingleback recommendations. Improper maintenance, such as use of incorrect cleaning agents.

(b) Damage - Any defects resulting from an accident, impact, fire, improper repairs or illegal use or malicious or accidental damage to your Product(s) (including damage by a third person).

(c) Instructions - Defects where you have not used the Product(s) in accordance with the operating instructions or design specifications.

(d) Misuse - Any defects resulting from operator negligence, misuse or abuse, loading beyond

specified load and capacity, use in off road condition beyond the designed or intended use of the Product(s).

(e) Modifications - Any modifications, dismantling or other alterations that have not been approved by Shingleback. Any defect caused by changes to original equipment and the fitment of non-approved parts or accessories.

(f) Overloading - Any defects resulting from Product(s) being subjected to overloading, for any period of time.

(g) Reporting and repairs – Failure to report warranty defects in a reasonable time and/or have defects repaired in a reasonable time. Failure to have to Product(s) repaired in a reasonable time in accordance with the manufacturer’s recommendations following an accident or other damages within a reasonable time after the defects became known or suspected.

(h) Rust and powder coat - This Warranty does not cover the cosmetic appearance of your Product(s) and excludes deterioration due to rust or the fading of any painted or other types of surfaces.

(i) Consumables – Stickers, bungee cord loops, buttons, handles, plastic caps.

6. Guarantees under the Australian Consumer Law

6.1. Our goods come with guarantees that cannot be excluded under the Australian Consumer Law.

6.6 This document should not be read as excluding, restricting or modifying your rights and remedies under the ACL.

7. Keeping your details up to date

7.1. The Australian Government requires manufacturers to be able to contact the current product owner if any recall or service campaigns become necessary. Should you change your address or sell your product, please email contact@shinglebackoffroad.com.au or call us on 02 6049 0777 between 9.00am and 5:00pm Monday to Friday (AEST) to update your ownership details.

8. Privacy

8.1. By accepting Terms set out in this Warranty, you agree to your personal information being used and disclosed for the purpose of providing warranty services, and for the purpose of providing information about other products

offered by Shingleback and its related companies.

8.2. For further information, please see our privacy policy available on request or at shinglebackoffroad.com.au

9. Laws and Jurisdiction

9.1. These terms and conditions are governed by and construed in accordance with the laws of the State of Victoria.
